SKILLS

- Programming
- Designing
- Python
- MS Word
- HTML
- Power Point
- JavaScript
- Excel
- SQL

Other Skills

- Communication skills
- Confident and Determined
- Problem-solving skills
- Organization and time management skills
- Quick learner
- Good team Leader

PLATFORMS

- My SQL
- Mongo DB
- VS Code
- Netbeans
- IDE Python
- PowerPoint

CAREER OBJECTIVE

I Want to work with an organisation which can give me ample opportunities to grow.

I will make sure to utilize my skills and qualifications to contribute to the growth and success of your organization while continuing to expand my knowledge and expertise, enhance my skills and capabilities and earn some experience.

EDUCATION

- | | |
|-------------------------|--|
| 2010 - 2021 | SSC Maharashtra Board
St. Anthony's High School, Vakola |
| 2021 - 2023 | HSC Maharashtra Board
Thakur College Of Science and Commerce
PCMB Science |
| 2023 - Till Date | University Of Mumbai
Nirmala Memorial Foundation College of
Commerce And Science
Pursuing : Bachelor Of Science in
Computer Science |

CETIFICATIONS

- IIT Bombay Spoken Tutorial Project
 - Python
 - HTML
 - Android App Using Kotlin
- Quantum Learning Powered by Microsoft in Education Global Training Partner
 - Python
- Ethical Hacking Workshop in Association with Scienox Technologies Private Limited

EXPERIENCE

Mathematics & Science Lecturer (Secondary & Higher Secondary Level)

Mind Mentorium Academy, Mira Road (East)

September 2024 - Till Date

- Planned and delivered interactive lessons aligned with academic syllabus. Designed tests, quizzes, and assignments to evaluate student performance.
- Provided one-on-one academic support to struggling students. Improved average student scores by 15% through customized lesson plans and test strategies.
- Received positive feedback from over 90% of students for effective teaching style and clarity. Helped students prepare successfully for board exams with high pass rates.

PROJECTS

○

Tourist Guide Web Application – Incredible India

Bachelor of Science (Computer Science) Semester V Project

- Developed a full-stack travel web app acting as a digital tourist guide with destinations, hotels, restaurants, maps, and audio guides.
- Built using React, TypeScript, Tailwind CSS, and Node.js with Supabase/PostgreSQL for scalability and responsiveness.
- Integrated pre-recorded audio guides for better accessibility and cultural experience; added admin features for content management.
- Designed system using UML diagrams and implemented search, filters, and itinerary planning with scalable, accessible architecture.

○

NGOConnect – NGO Resource & Volunteer Management System

Bachelor of Science (Computer Science) Semester VI Project

- Developed a full-stack NGO management web app connecting volunteers, donors, and organizations for streamlined social impact operations.
- Built using React, TypeScript, Tailwind CSS, and Python Flask with MongoDB Atlas for scalability and real-time data management.
- Implemented secure JWT-based authentication for both users and NGOs, with dedicated portals for registration, event management, and donation tracking.
- Designed system using UML diagrams and implemented features like volunteer applications, event listings, donation management, and NGO discovery with a responsive, accessible architecture.

DECLARATION

I solemnly confirm that all the information provided above is true to the best of my knowledge and belief.
