PROFILE

Frontend Developer with hands-on experience in building responsive and user-friendly web applications using React.js, JavaScript, TypeScript, HTML, and CSS. Skilled in reusable components, REST API integration, routing, forms, and modern frontend tools like Git and Vite. Seeking a Frontend Developer role to contribute to impactful web projects.

EDUCATION

Nirmala Memorial Foundation College of Commerce & Science

Kandivali, Mumbai

Bachelor of Science in Computer Science | Cumulative GPA: 8.5

2023 - 2026

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, HTML5, CSS3

Frontend: React.js, Material UI (MUI), Bootstrap, Formik, React Router, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, npm, Vercel, VS Code, Supabase

Skills: Problem-Solving, Team Collaboration, Communication, Adaptability, Time Management, Attention to Detail

Languages: English, Hindi, Marathi

WORK EXPERIENCE

Mind Mentorium Academy

Mira Road, Mumbai

Science & Mathematics Lecturer

September 2024 - August 2026

Planned and delivered interactive, syllabus-aligned lessons, designed assessments and assignments, and provided personalized academic support, improving student scores by 15% through customized teaching strategies and effective board exam preparation.

InAmigos Foundation (IAF)

Remote

Web Developer Intern

May 2026 - June 2026

Worked as an AI Web Development Intern at InAmigos Foundation, creating AI-based websites using modern website builders and AI tools, while gaining hands-on experience in website design, personal branding, content creation, and digital presentation.

Confederation of Indian Industry (CII)

Kandivali, Mumbai

Front-End Developer

June 2026 - Present

- Developed responsive, cross-device user interfaces using React.js and Material UI (MUI), ensuring consistent layouts and performance across desktop, tablet, and mobile screens
- Translated UI/UX designs and API specifications into functional, reusable React components, working end-to-end with UI/UX and backend teams to align data models with UI requirements
- Integrated frontend with backend REST APIs using Axios, handling dynamic data fetching, loading states, error handling, and response caching to ensure smooth client-server communication
- Built and validated forms using Formik, and implemented client-side navigation with React Router, structuring a scalable multi-page application flow
- Developed interactive data visualization features using Recharts, transforming raw API data into clear, actionable charts for end users

PROJECTS

NGOConnect : NGO Resource & Volunteer Management System

- Built NGOConnect, a full-stack platform for managing NGO events, volunteer applications, donations, and analytics.
- Tech: React/TypeScript, Flask, MongoDB, with role-based access for users and NGOs.
- Link : <https://ngo-resource-volunteer-management-s.vercel.app>

EduNova: A Smart Learning Platform

- Built a responsive online learning platform offering expert-led courses in tech, finance, and career development.
- Developed the frontend with React, TypeScript, and Tailwind CSS on Vite for fast builds, and used Supabase for authentication and data management.
