SKILLS

- Python
- Designing
- HTML & CSS
- MS Office
- TypeScript
- React
- Javascript
- Mongo DB Atlas
- Supabase

Soft Skills

- Communication skills
- Confident and Determined
- Problem-solving skills
- Time management skills
- Quick learner
- Good team Leader

PLATFORMS

- My SQL
- Mongo DB
- VS Code
- Netbeans
- IDE Python

CAREER OBJECTIVE

I Want to work with an organisation which can give me ample opportunities to grow.

I will make sure to utilize my skills and qualifications to contribute to the growth and success of your organization while continuing to expand my knowledge and expertise, enhance my skills and capabilities and earn some experience.

EDUCATION

2010 - 2021 **SSC Maharashtra Board**

St. Anthony's High School, Vakola

2021 - 2023 **HSC Maharashtra Board**

Thakur College Of Science and Commerce
PCMB Science

2023 - Till Date

University Of Mumbai

Nirmala Memorial Foundation College of
Commerce And Science

**Pursuing : Bachelor Of Science in
Computer Science**

CETIFICATIONS

- **IIT Bombay Spoken Tutorial Project**
 - Python
 - HTML
 - Android App Using Kotlin
- **Quantum Learning Powered by Microsoft in Education
Global Training Partner**
 - Python
- **Ethical Hacking Workshop in Association with Scienox
Technologies Private Limited**

EXPERIENCES

- Mathematics & Science Lecturer (Secondary & Higher Secondary Level)**
Mind Mentorium Academy, Mira Road (East)
September 2024 - Present

- Planned and delivered interactive syllabus-aligned lessons while designing tests and assignments to track student performance.
 - Provided personalized academic support, helping improve student scores by 15% through customized teaching strategies and effective board exam preparation.
- Web Development Internship**
InAmigos Foundation (IAF)
May 2026 - Present

- Working as an AI Web Development Intern at InAmigos Foundation through Internshala. Responsible for creating AI-based websites using modern website builders and AI tools.
 - Gaining hands-on experience in website design, personal branding, content creation, and digital presentation skills.

PROJECTS

- Incredible India : A Tourist Guide Web Application**
Bachelor of Science (Computer Science) Semester V Project

- Developed a full-stack travel web application with destinations, hotels, restaurants, maps, and audio guides using React, TypeScript, Tailwind CSS, Node.js, and Supabase.
 - Implemented search, filters, itinerary planning, and admin features with a scalable and responsive architecture.
- NGOConnect : NGO Resource & Volunteer Management System**
Bachelor of Science (Computer Science) Semester VI Project

- Developed a full-stack NGO management web application connecting volunteers, donors, and organizations using React, TypeScript, Tailwind CSS, Python Flask, and MongoDB Atlas.
 - Implemented JWT-based authentication, event and donation management, volunteer applications, and NGO discovery with a scalable and responsive architecture.
- EduNova : A Smart Learning Platform**
Bachelor of Science (Computer Science) Semester VI Project

- Developed a full-stack smart learning platform using React, TypeScript, Tailwind CSS, and Supabase, featuring user authentication, course enrollment with progress tracking, and profile management.
 - Implemented Supabase PostgreSQL database with Row Level Security, real-time enrollment updates, and deployed the application on Vercel with environment-based configuration.

DECLARATION

I solemnly confirm that all the information provided above is true to the best of my knowledge and belief.
